

Calgary Cowhands Corral Attention

Riding the range of legislative buildings, four Calgary MLA's roped and hogtied attention for Stampede city yesterday by halting law-wrangling to invite members and public to Calgary's rodeo next week. Dressed as bronco-busters, Calgarians busted legislative traditions

and wore gaudy garb during House proceedings. Perched on legislative corral fence here, cowhands H. B. MacDonald (Ind.), Fred C. Colburne (SC), A. J. E. Liesemer (CCF) and Hugh MacDonald (Lib.) make final plans for the stunt. (See story Page 13.)

Monday Deadline Clamped On London Docker Strike

NOTHING TO IT

Room Rented Double-Quick By Want Ad

When a good thing happens people like to pass it on to others. One such person, an Edmonton woman is that kind. So she called the Bulletin to share her good fortune with others. It seems that this lady had a room to rent, she put an ad in the Bulletin's Classified section yesterday and only three hours after the papers were on the street the room had been rented.

How can you get in on this good fortune? Easy. Let the Bulletin Want Ads take the worry out of your problems and bring good fortune to you. They get results. Phone 42111.

Calgary Race Entries On Page 23

Accused City Slayer Given Week's Remand

Michael Joseph Hayes, of West Jasper Place, accused of the axe-murder June 30 of William W. McKay, of 9696 Jasper avenue, appeared in police court today and was remanded for one week.

The tall, gaunt, army veteran, better known in Edmonton under the alias of Thomas Lee, appeared nervous and confused as he was escorted into the court by two RCMP constables.

The name was called several times before the slayer was forced to appear before Magistrate J. W. McCulla. He was wearing khaki trousers, a pearl grey sweater and no tie.

Mystery still surrounds the whereabouts of Mrs. Lee, expected to be the key witness in the trial. Other crown witnesses were in the court but the accused man's wife was not among them. An RCMP officer declined to comment on her present location.

BRUTAL SLAYING

McKay was slain in one of the most brutal murders in the history of western Canada early Thursday morning at the Lee home at 9300 137 avenue.

He is believed to have been buried alive after he was slugged with a steel pipe.

His killer is believed to have seen him moving under a thin covering of earth in a shallow grave behind the Lee home and to have struck him in the head with an axe. Mrs. Hayes reported the killing to city police late Thursday afternoon. She is believed to have been in the house when the slaying occurred.

Britain Buys Soviet Grain

LONDON, July 8.—(AP)—Britain has agreed to buy nearly 1,000,000 tons of coarse grains from Russia in the next year, official sources disclosed today.

The informants added that part of a barter deal agreement was initiated in private in Moscow last week—a few days before Britain's economic planners announced a three-month standstill on dollar spending.

Talks for a one-year Anglo-Russian trade pact have been going on for some time. The grain deal would form part of that year-long pact.

In Ottawa trade officials said that the United Kingdom's purchase from Russia next year will have little effect on Canadian sales in the U.K.

Perjury Trial Jury Unable To Reach Verdict

NEW YORK, July 8.—(AP)—The jury in the Alger Hiss perjury trial reported today it could not arrive at a verdict.

The jury said it was deadlocked after nearly nine hours of deliberation.

After the jurors reported they could not arrive at a verdict, Federal Judge Samuel Kaufman asked them to make "one further attempt."

The union has about 8,000 members.

JUST YOUNG FELLOW LOOKING FOR A JOB

PENTICTON, B.C., July 8.—(CP)—Alvarez Rudolph Haabsburg, who'll be 115 today, is job hunting today.

But it's only a temporary position he seeks. Vancouver's wandering boy will return to the city in order to collect his old age pension.

Haabsburg, whose wandering feet led him away from the city for the third time recently, plans to work here for a month, journey to Clear Lake, Wash., to dispose of some property and then return to Vancouver.

HERE'S A LIFT FOR NECKERS

SPRINGFIELD, Ill., July 8.—(UP)—Let us not condemn the kiss, the Illinois public health department urged today.

People who criticize kissing as a health menace have a "false conception" of germs or a "bacteria-phobia," it said in the Illinois Public Health Messenger.

Their plan for electoral or legislative decision on the gas export question brought a fiery speech of support from one of the government's own members, H. E. Ansley (SC-Ledue).

Opposition members also had milder support on two separate occasions from two other Social Credit members.

VOTE TO 3

But government weight carried the bill into the province's statutes. After division bells rang the Gas Export Bill was given third reading by a vote of 50 to 3.

A few minutes later, the Lieut. Gov. gave it Royal Assent, saying: (Continued on Page 2)

"Gas Export"

WETASKIWIN, July 8.—Inquest into the death of Herman Leslie Skogman, Winfield hotel proprietor or who died in Wetaskiwin hospital Wednesday was adjourned indefinitely last night after a corononer's jury viewed the body.

Skogman suffered facial injuries during a fight in Winfield on July 1 and later came to hospital here for treatment. Details of fight are not known.

An autopsy has been held and it is expected the findings will be released when the inquest is reopened.

The dead man had been proprietor of the Winfield hotel for many years, was married and had a family.

Recount Asked In Regina City

REGINA, July 8.—(CP)—Application for a recount of ballots cast in Regina city in the June 27 federal election was made here today by CCF officials.

The CCF candidate, J. O. Probe, lost by 15,000 votes. Liberal Party won by a 50-vote margin in official returns announced Monday.

EVEN WITHOUT A NEEDLE

By SHERLOCK MCLEAN

It's elementary, my dear Watson. The culprit is obviously a circus!

Now, Watson, if you'll just hand me my pipe—there's a good fellow—I'll recount for you the strange happenings of the case of the circus arrows.

We've got to go back a bit, Watson. If you will let your mind wander back to the first of the week you will recall, I'm sure, seeing for the first time those strange chalk marks on our telephone poles.

They'd been there on the poles perhaps two days before I was called up on the case.

The police were stumped. The city was agitated. And, Watson,

Gas Export Bill Passes Legislature

Strict Controls Retained Under New Legislation

Alberta's surplus natural gas may now be exported from the province under stringent regulations and licensing. Premier E. C. Manning piloted the Gas Export Bill to that effect through the Legislative Assembly's special session yesterday.

The bill had a stormy passage before Lieut. Gov. Hon. J. C. Bowen promulgated the special act at 5:46 p.m.

Bill No. 2, providing rigid oil and gas conservation measures and giving sweeping powers to the Conservation Board met with negligible opposition.

Also passed without protest were Bills 3, 4, 5 and 6, all supporting and complementing the Gas Export Bill and conservation measures, and Bill No. 7, amending the Life Insurance Company of Alberta Act, and Bill No. 8, validating certain Calgary by-laws.

LAST DITCH FIGHT

Five left-of-the-speaker members made a last-ditch stand against the government legislation they have opposed consistently since the special Gas Export Session opened Monday afternoon.

Their plea for electoral or legislative decision on the gas export question brought a fiery speech of support from one of the government's own members, H. E. Ansley (SC-Ledue).

Opposition members also had milder support on two separate occasions from two other Social Credit members.

VOTE TO 3

DANNY KAYE FLIES HOME, KISSES PROP

NEW YORK, July 8.—(AP)—Comedian Danny Kaye, still full of wisecracks despite an airplane trip that almost deposited him and 32 others in the Atlantic ocean, arrived home last night on a second plane, kissed one of its propellers and jibed.

"I hope this thing doesn't turn over," he said.

Kaye and his fellow passengers were aboard a Pan-American Constellation which left a propeller after an engine fire.

Crash Victim Dies at Edson

Injured in Wednesday's light aircraft crash near Wildwood, Tolvo, Edson, died at 4 a.m. today in hospital at Edson.

He did not regain consciousness. Also, believed to be of Finnish nationality was pilot of a plane en route from Fort St. John to Edson which ran out of fuel after becoming lost in a storm.

PASSENGERS IMPROVING

Two passengers, Nancy and Ruth Cameron, Anchorage, Alaska, are reported to be improving today, although Nancy Cameron's condition is serious.

The girls are in their late 20's. Also was a young man but hospital authorities did not know his age. Accident is being investigated by aeronautical authorities and RCMP.

Car Mishap Kills Baby

REGINA, July 8.—(CP)—Bobby Montgomerie, one-year-old son of Mr. and Mrs. George Montgomerie of Regina, was instantly killed last night when the automobile in which he was riding swerved off the highway, one mile south of Yorkton, to avoid an oncoming car.

The child is believed to have fallen out when the car door suddenly swung open.

Mrs. Montgomerie, Ben Keitner, Tolvo, and Charles Van der Regina, driver of the car in which the trio were riding, all suffered cuts, bruises and shock. Mr. Montgomerie, well-known actor, now is in Nelson, B.C., at a summer home.

Police are holding Charles Van der Regina, driver of the car in which the trio were riding, all suffered cuts, bruises and shock. Mr. Montgomerie, well-known actor, now is in Nelson, B.C., at a summer home.

Former City Man Dies in Hotel Blaze

Special to The Bulletin

YELLOWKNIFE, N.W.T., July 8.—Two elderly men perished in flames this morning as the Yellowknife hotel, a frame structure perched on top of the rock in the old town, was destroyed by fire.

Dead are George Saunders, 67, pensioned printer, formerly employed on Edmonton newspapers, and Carl Peterson, 70, crippled prospector.

Injured and in hospital are Mr. and Mrs. Oscar Banks suffering from slight burns, shock and rope burns.

Fear that another man might be dead in the ruins was dispelled by RCMP who said the third party had been located.

MR. SAUNDERS, part time employee of the Yellowknife newspaper, had been a resident of Yellowknife for four years. He had no relatives in this district.

He came to Edmonton from Ontario, his birthplace, about 1906. A former member of the Edmonton local ITU, he had worked on papers in Edmonton and Calgary from that period until his retirement except for service in the First Great War. He was also a war pensioner.

Mr. Saunders is survived by one sister, Kathleen in Toronto, and another, believed to be in Calgary. Mr. Peterson was a pioneer in the north country and was crippled.

(Continued on Page 2)

See "2 Burn To Death"

Warmer weather for week-end holidays is in store, according to Edmonton's weather forecaster.

Forecaster says skies will clear this afternoon and evening bringing light winds and warmer temperatures.

The estimated low for tonight is 41 and high for tomorrow is 70. No rain is in prospect.

Temperatures across Canada yesterday were:

ALL FIRES CHECKED

Smaller crews are all other fires in the province in check and forestry officials are hopeful the remaining blazes may be extinguished this week.

Light rains during the past week improved conditions in many Alberta areas, but because the moisture came late in the growing season many crops will be short and patchy.

Pastures are improved and feed shortage is expected to ease. Wheat, oats and barley are in short blade in many localities, and some wheat is heading out.

The warm weather is needed in the Peace River area. This district is the only Alberta area where spring moisture was adequate to promote normal crop growth.

Warm weather is needed to accelerate growth where wheat is heading out and coarse grains are in the shot blade.

Man Cheats Gallows By Slitting Throat

BALTIMORE, July 8.—(UP)—Roy A. Wood, 24-year-old murderer, committed suicide last night by slitting his throat with a razor blade a short time before he was to die on the gallows in the Maryland penitentiary here, prison officials said today.

BULL MEANS BUSINESS as he tramples Bill Kennedy, cowboy from White Swan, Wash., at rodeo at Packwood, Wash. Kennedy, thrown from bull's back did not suffer serious injuries.

Youthful Bandits Nabbed at Banff

Two 'boy badmen' who escaped Tuesday night from the Optimists Boys' Home here were captured at Banff last night by the RCMP.

The pair of young hoodlums, ages 15 and 17, arrived recently in Edmonton from Vancouver in a stolen car.

They are wanted in connection with a small-scale crime wave extending from here to the coast.

They are believed responsible for five car stealings and minor thefts in Edmonton, another five in Calgary, eight in Kamloops and others elsewhere. They have admitted to several of these charges.

A probation officer described them as a "pair of young daredevils who are challenging the world."

ESCAPE AT COAST
The pair are believed to be escapees from the Boys' Industrial School near Vancouver.

Four other juvenile offenders are in police hands this morning.

Two boys were picked up by city police accused of stealing money from a store in bottles from homes on the South Side.

Two girls turned themselves in to police at 4:45 a.m. today and said they were escapees from Mount View Home, Calgary. They were taken to Good Shepherd Home.

In Edmonton today to learn of various community projects in Alberta, is K. L. Young, of North Bay, Ont., director of supervision of Community Programs branch, Ontario Department of Education.

Mr. Young discussed community programs in both provinces during his visit. He is secretary for the Asbestos Oils Ltd. in an appeal against a supreme court of Canada judgment involving a \$100,000 damage suit arising out of a fire which destroyed the company's plant at McMurray several years ago.

SOME COMPARISON
Western community programs—recreational activities, neighborhood projects and adult education facilities and interests—are being compared in similar programs in Northern Ontario.

Alberta is free of serious health authorities said today.

Only major epidemic reported this year was an outbreak of measles which reached a peak of more than 500 cases a week during early June.

Incidence of the disease is now rapidly declining, with 230 cases reported for the week ending June 23 and only 106 reported in the week ending July 2.

Decline is also shown in the incidence of German measles. Number of cases dropped from 85 for the week ending June 28 to 44 last week.

Only six police cases have occurred since the first of the year, and none has been reported within the last month.

Last year at this time the province was entering its most serious police epidemic when more than 300 cases were reported in the province.

Province Shows Good Record for Diseases

Alberta is free of serious health authorities said today.

Last year at this time the province was entering its most serious police epidemic when more than 300 cases were reported in the province.

Strike Sympathizers, Aussie Police Clash

SYDNEY, Australia, July 8.—(CP)—Coal-strike sympathizers, including dock workers armed with iron hooks, clashed with police today in a one-hour demonstration outside the courthouse where Communist strike leaders are being tried for contempt.

As police tried to clear the thoroughfare for traffic, the throng of 2,000 demonstrators fought with and shouted, "Down with Chifley" (Prime Minister Joseph Chifley).

The crowd gathered in protest the six-month jail sentence imposed today on Leslie J. McPhillips, acting federal secretary for the Iron Workers' Association. McPhillips was sentenced on a contempt-of-court charge for refusing to reveal the whereabouts of £25,000 (about \$80,000) in union funds he had withdrawn from the bank. The IWA was fined £1,000.

The government has frozen all union funds to prevent financial aid to Australia's 20,000 striking coal miners. The miners have been out for almost two weeks with a resultant increase of more than 100,000 in unemployment, less than \$100,000,000 in lost wages to the country, and severe hardship to the population faced with drastic heat and light curtailment.

SOLONS IN SESSION

Representation Poses Problem for Committee

Initial steps in redistributing Alberta's electoral districts were taken today at the first meeting of the Provincial Re-Distribution Committee.

The committee convened today at the legislative building, and appointed Robert Andison, clerk of the legislative assembly, as secretary.

Calgary and Edmonton electoral districts are excluded from the committee's consideration at this time, and attempts are being made to provide for an even representation of electors in each of the province's remaining electoral divisions.

At present some rural districts comprising 4,000 voters are represented by one member, while in other districts one member must

SLEEPING on a motorcycle comes easy to 14-year-old Richard Klatt, Vancouver schoolboy with yen to be a dirt-track rider. Richard roared into Edmonton after two-day trip from coast and told reporters he solved hotel problem by catching 40 winks in saddle. "I woke up just in time," he smiled.

Treasury Depleted \$4,000 By 4-Day Gas, Oil Session

LOWER FLYING RATES START IN OCTOBER

If you're planning a trip to England, Scotland or Ireland, here's good news for you.

Beginning October 1, winter excursion fares, with a 60-day validity, will come into effect on Trans-Canada Air Lines North Atlantic services.

The fare-and-a-third round trip tickets will mean savings of \$180.20 between Montreal and London; \$169.90 between Montreal and Prestwick; and \$164.80 between Montreal and Shannon.

Vice-president of traffic Anson C. McKim stipulates that excursion tickets have to be purchased prior to midnight, March 31, 1950. All excursion tickets expire at midnight, April 30, 1950.

Bike License Upsurge Laid to New Bus Fare

Increase in transit system fare is given by city license department officials as the reason for the extraordinary increase in bicycle licenses issued in recent months.

Bicycle licenses issued to the end of June this year were 2,915 over the total for the same period last year.

Total of licenses issued during the six months period this year was 13,460 compared with 10,546 for the same period last year.

The total to June 30 this year is just 177 short of the record set for the 12 months period last year.

RECORD SET
Dog licenses issued to date show a record for the six months period, and will establish an all-time record this year.

Total of licenses issued to June 30 is 2,624 compared with 1,912 for the same period last year.

Revenue collected by the department also will establish a new record in 1949. To June 30, \$117,812.13 was collected compared with \$102,746.16 for the six months period of last year, an increase of \$15,066.03.

The sardine is not a dwarf fish, but the young of the pilchard, a species of herring.

Southern Boy Badly Beaten

Special to the Bulletin
TWO HILLS, July 8.—Albert Holmboe, 16-year-old farm boy of Mymann, was taken to hospital in Two Hills last night suffering severe head and body injuries.

While herding cattle on a farm four and a half miles north of Mymann, he was attacked and beaten by an unknown assailant. He was taken to hospital when found wandering about in a dazed condition.

Police state robbery was not the motive. They are investigating the incident.

All-Time Record Seen in Edmonton

Building Here Expected To Hit Over \$27 Million

Edmonton's 1949 building program swept the \$20,000,000 mark today, and by the end of this month will likely pass the all-time record of \$27,123,329 set last year.

Since July 1 total of 80 permits were issued for dwellings with a value of \$480,000.

This brings to \$10,325,100 the total of home building from 1,384 permits issued since January 1.

Permits for two three-storey apartment blocks were issued to Joseph Tannous, 10461 83 avenue.

Stanley and Stanley are architects and Buchanan and Lipsey contractors on these projects.

2 NEW SCHOOLS
Application has been made by the Edmonton Public School board for permits covering two new schools.

This cover erection of elementary schools in the Inglewood and Bellevue districts, and are for \$37,800 and \$107,114.

W. W. Hulebar is the architect and Prudham Construction Co. Ltd., the contractor on these projects.

Northern Hardware Co. Ltd. also has applied for a permit covering alterations and repairs to its building damaged in a fire earlier this year. This permit is for \$275,000.

Rule, Wyn and Rule are architects and C. H. Whitham Co., the contractor on this project.

Four-day discussion by Alberta M.L.A.s of gas and oil export and conservation problems took nearly \$4,000 from the provincial treasury.

This amount was paid to members of the legislative assembly as indemnity and expense allowances during their attendance at the special session this week.

\$21 DAY
Each private member drew \$21 a day—\$14 indemnity and \$7 expenses—for the four days of the session. Cabinet ministers did not receive the payment.

Among M.L.A.s who will receive \$84 vouchers is Mrs. Rose Wilkinson, S.C.-Calgary. Her health prevented Mrs. Wilkinson from attending the sittings, but presentation of a doctor's certificate will entitle her to full payment.

Cash vouchers totalling \$2,948 cover members' fees and expenses are being made out today by Robert Andison, clerk of the legislative assembly, and his staff. They are being distributed to members later today.

By-Law Vote Date Set At Lethbridge
LETHBRIDGE, July 8.—(CP)—Lethbridge property owners will go to the polls Tuesday to vote on three money-by-laws totalling \$97,725 which will authorize lease construction of sidewalks, curbs, sewers and storm sewers. Slightly more than 5,000 burgesses are entitled to vote on the by-laws.

Potato Plan Fails
TRURO, England.—(CP)—In some Cornish districts, a scheme by which new potatoes, delivered by farmers to the railroad, are bought by the food ministry, proved a failure. Farmers could not get enough sacks for their large crops and British railways cannot handle all the traffic because of freight car shortage.

A Real Police Force

The projected appointment of six new constables to the Edmonton police force is not nearly enough because even this addition does not bring the force up to the per capita of population strength of earlier years in this city.

Edmonton's present population is 137,469. The strength of the force after the six men have been hired will be 156.

This means that there will be the constable for every 885.56 of population.

In 1920, when Edmonton was a small, young and peaceful city, there was one constable for every 763 of population.

How does the civic administration figure that Edmonton can get along in 1949 with fewer constables, comparatively speaking, than were found necessary in 1920?

As a matter of statistical fact, the Edmonton of 1949 needs a far greater per capita police strength than in 1920 for these reasons:

1. Because motor car traffic has tremendously increased.

In 1920, there were 36,575 passenger cars registered in Alberta. In 1949, this figure will probably reach close to 130,000.

Moreover, the tourist influx is infinitely greater than it was 29 years ago.

Traffic control alone demands a much greater force proportionately than in 1920.

2. Because the crime rate all over Canada has almost doubled in many particulars in the past quarter century.

3. Because juvenile crime is markedly on the increase everywhere, including Edmonton.

4. Because Edmonton is a boom town, offering opportunities to all kinds of people, and thus attracts adventurers who do not know Edmonton existed in 1920.

The fact is that the rapid growth of Edmonton and all the factors consequent upon that growth have not been taken into consideration in planning the police force needed here right now.

Chief Constable Jennings and his staff are doing a magnificent job with the men at their disposal.

But the strength of the force must be kept up much above 156 men if law and order are to continue to prevail.

No Place for Communist Teachers

The National Education Association of the United States, consisting of 825,000 school teachers, has unanimously resolved that Communists should not be allowed to teach in American schools.

It is a wholesome resolution and should be echoed, in some way or another, in Canada.

There should be no place for Communists in any part of the Canadian educational system.

There should be no place for Communists because the very nature of the Communist conviction impels the Communist to be an agent of indoctrination no matter what subject he teaches.

He imparts the Communist slant to every item of information he deals with and thus the children and young men and women under his instruction are insidiously led to the Communist viewpoint without being conscious of it.

This does not mean, of course, that Communism should be avoided as a subject.

Practical way to help Britain

The practical way for Canadians to help Britain in her new economic crisis is to buy more British goods.

The expert economist may have clever analyses to explain Britain's present plight. Britain, Canada and the United States may talk themselves dry in London in an attempt to right the imbalance between the dollar and the pound.

But the fundamental need of Britain, in terms which ordinary Canadians can understand and do something about, is to sell more goods in the dollar area of which Canada is a part.

For this end, Britain can do a great deal to help yourself.

State Secretary Dean Acheson of the United States made an important point when he stated on Wednesday that Britain's long-term solution is to build income and that Britain's industry, by increased efficiency, lower prices and better selling methods, must complete harder for buyers in world markets.

This formula seems to us to be of extreme significance in the attempt to increase purchases of British goods in Canada.

Time was when British goods sold without their reputation. Workmanship and quality were so unquestionably high that modern merchandising methods were not necessary to promote their sale in this country. So great was the demand for fine British manufactures, that some items even commanded a premium in price among Canadian buyers.

That halcyon day is over for two reasons.

In the first place quality has not been maintained in all instances. In the second place, a racket developed of selling second-rate British goods at the price of first-rate commodities. And Canadians got wise to it.

The brutal fact is that, with all the good will and sympathy in the world, Canadians are not likely to materially increase their purchases of British goods until British manufacturers take Secretary Acheson's advice and intensify their merchandising effort with more efficient production, lower prices and all the resources of salesmanship.

ON THE RECORD By Dorothy Thompson

Trieste's Strange Problem Poses Political Problem

TRIESTE—Trieste is a city, and usually after the name of a city you put the name of the country it is in.

As a result of an ill-considered peace treaty, Trieste, the "Pearl of the Adriatic," is neither in Italy nor in Yugoslavia.

It is a government, not under international control, but under the control of the United Nations.

A few years ago, Trieste was a free city, but now it is a political problem.

The British and American governments have agreed to make Trieste a free city, but the Yugoslav government has refused to do so.

The British and American governments have agreed to make Trieste a free city, but the Yugoslav government has refused to do so.

The British and American governments have agreed to make Trieste a free city, but the Yugoslav government has refused to do so.

Letters to the Editor

Day For The West

Editor, Bulletin—Why is it that all other large cities have a day or so set aside to recall such victories as the Gibson Girl and Gay Nineties period?

Is Edmonton so modern that she can't have a day in which Edmonton and its people become westerners?

Why not have a day during Exhibition Week to do our western celebration?

AN EDMONTON CITIZEN, Edmonton.

Stiffer Sentences

Editor, Bulletin—There must be thousands of mothers and fathers who read with indignation that crimes against little children are so lightly punished. It simply amounts to a rest cure.

In my opinion, anyone guilty of such an offense should be put away for many years in prison, if a criminal, or in a mental institution, if he is a mental case.

While I am at it, I would also suggest that motor drivers who have their licenses cancelled for dangerous driving, should have their cars impounded for the same length of time, so as to make sure that these people are not driving their cars.

Perhaps some of our judges have no children, which may account for this leniency toward criminals or potential criminals.

EDMONTON INDIGNANT.

Russian Exploits

Editor, Bulletin—I read with interest your news item that a Russian peasant built two submarines 30 years ago. What with the first airplane, the first car, that Watt and Stephenson flunked their idea, the steam locomotive.

By Webster

One Man's Viewpoint

BY STAN ROSS

The situation in the suburb of West Jasper Place is becoming critical. A recent murder has taken place, a knife-wielder is reported to have chased a woman down the highway from the bus stop. Residents report other women being molested.

Those things happen in many places, but what makes the difference in the case of West Jasper Place is that there is no adequate police protection.

Apparently the municipality is not particularly interested. It is a rural municipality. There is a local constable. But what hope has he of maintaining law in a community of well over 8,000 people.

No arrangement is made with the RCMP who do not consider themselves responsible for the district and, of course, the Edmonton police force has no authority at all.

Needs Immediate Attention

That is the situation and under these conditions it is amazing that there has not been more trouble.

This is a matter which requires immediate attention. The operation of the police in Edmonton is going to be severely handicapped if it is possible for criminals to congregate just outside the city limits. Yet that is exactly what will happen.

Undesirables will quickly seize the lack of authority in West Jasper Place and unless the matter is attended to promptly, the police will face a problem which will be hard to handle.

But quite apart from this effort upon Edmonton, the local residents have every reason to complain about the increasing number of these happenings, and they have a right to complain before more people are attacked or killed.

But if the provincial government should step in when a municipality stops providing adequate service, is it not even more important that it step in to assist upon a municipality providing service when it is needed?

It is a high time the department of municipal affairs and the Attorney General combined to clean up this West Jasper Place situation before it becomes any worse.

Expense Shouldn't Count

It is stupid to talk about the expense involved, because expense should not be permitted to prevent the protection of any person.

It may also be argued, with some reason, that part of the blame lies in the failure of the area to agree upon a proper civic organization whereby they could establish their own proper police force or make arrangements to secure the services of the RCMP.

Yet that argument is equally unsound.

For example, suppose the city of Edmonton suddenly abolished its police department and provided no police protection, could it even be suggested that the citizens would have to put up with that? Could the provincial authorities simply stand by and permit lawlessness to flourish?

If such a thing happened the provincial government would be bound to step in and take whatever steps might be needed.

After all the provincial government is charged with the general overriding authority and responsibility.

But if the provincial government should step in when a municipality stops providing adequate service, is it not even more important that it step in to assist upon a municipality providing service when it is needed?

It is a high time the department of municipal affairs and the Attorney General combined to clean up this West Jasper Place situation before it becomes any worse.

SURPRISED BETWEEN classes on campus are Van Johnson and Loretta Young in scene from "Mother is a Freshman," new technicolor comedy starting today at Capital Theatre. Loretta is "alma mater" of film who resolves her financial difficulties by following her sophomore daughter to college. Van is most eligible bachelor on faculty—with whom both Loretta and daughter fancy themselves in love.

Inside Hollywood

By Bob Thomas
HOLLYWOOD.—(AP)—You've got to dye to be an actress, Shelley Winters advises young blonde hopefuls.

"A blonde who wants to be a serious actress has an uphill struggle in Hollywood," said the new film find.
Shelley had a series of trouble spots on Broadway until director George Cukor picked her to be in "Double Life." Colman got an Oscar for slipping her a mick.
The gal has been going great guns at Universal-International, but she claims the average blonde has a rough go.
"Every woman is flattered by male attention and the average blonde female actress in Hollywood gets more than an adequate share. But how vain can you be? After a while you want to find someone who takes your ambitions and your ideas about an acting career seriously."

SEXY LOOK
"The typical male attitude here is 'this is just a cute blonde cookie who knows only about looking sexy.' When you try to convince them that you want more than that out of acting—you get blank stares."
Her solution: Dye your hair and have yourself a pack of trouble.
After seeing Shelley do a sexy song number in a far-east bazaar for "East of Java," I think I'd rather see her in that sort of thing than in Shakespeare.
"She studies the hard, in Charles Laughton's class."
But there maybe I'm that typical Hollywood male take about.

OTHER NOTE
Howard Hughes is reportedly complaining about the expense of the Rosebud-Berlin picture, for which he's footing the bill. What he's concerned for? He's only got the most highly publicized picture of all time.
Peter Lawford is giving UCLA caddy the heart-throb. He's tak-

Business By Cheque Shows Big Jump

OTTAWA, July 8.—(CP)—With business leading the way, business carried on by cheques was higher right across Canada during May.
The bureau of statistics reported today that business in the form of cheques was \$6,914,887,000, compared with \$6,443,560,000 in May a year ago, while the cumulative total for the first five months of this year was \$32,954,061,000, compared with \$31,522,110,000 in the same period of 1948.
The expansion in cheque transactions was fairly general, among the uses in May with the greatest pro-

Trend to Realism In Capitol Film

'Mother Is A Freshman' Has Loretta Young, Van Johnson

Capitalizing on the current trend toward realism, Twentieth Century Fox has given the campus a fresh new look which the rah-rah brethren of the raccoon twenties and the frantic thrills wouldn't recognize.

According to previewers, the technicolor comedy "Mother is a Freshman," starring Loretta Young and Van Johnson, which started today at the Capitol Theatre is a movie where students' really act like students.
There is no chorus of shapely chorines, no absent-minded professor, not even a game-winning last-minute touchdown in the final reel.

REALISTIC BACKGROUND
Instead there is projected against a realistic college background the novel story of a lovely young widow who, financially embarrassed after years of luxury, discovers that she is eligible for a college scholarship.

Following her sophomore daughter to the campus she enrolls as a freshman and promptly falls in love with the handsome professor of English literature with whom her daughter is also enamored.
Seen in the title role, Loretta Young has Betty Lynn as her daughter while the apex of the unusual triangle is Van Johnson as the youthful professor.

Headed the featured cast "Mother is a Freshman" are Rudy Vallee and Barbara Lawrence, while Robert Arthur, Betty Lynn, Griff Barnett and Kathleen Hughes are also featured.
Walter Morosco produced the film and the screen play was by Mary Lou and Richard Sale, based on a story by Raphael Blau.

Four New Polio Cases At Coast

VANCOUVER, July 8.—(CP)—A dispatch from the health department reported in the greater Vancouver area today by Dr. Stewart Murray, chief medical health officer.
Twelve cases have been reported in Greater Vancouver this year, most of them recently. The new victims include a woman and three children.

Tribune Keeps Anglo-Phobing

CHICAGO, July 8.—(AP)—The Chicago Tribune said yesterday the majority of most Falkland Islanders "don't want their governor." Sir Geoffrey Miles Clifford, to return to his post.
Juice Tribune correspondent, says in the last of a series of articles on the islands that the governor's wife, Lady Clifford, also is unpopular with the natives.
The Falklands are a British colony in the south Atlantic.

P.E.I. Senator Is Confirmed

OTTAWA, July 8.—(CP)—Appointment to the Senate of Hon. George H. Barlow, minister of public works and highways in the Prince Edward Island government, was ratified yesterday by the Governor-General on the recommendation of the cabinet.
He fills the lone vacancy among the four P.E.I. seats in the upper chamber. The appointment reduces the total number of senate vacancies to 15.

Barbara Ann to Have Her Own Ice Show

OTTAWA, July 8.—(CP)—Barbara Ann Scott is going to have her own skating show.
Starting this fall, the famous 21-year-old Canadian figure skater will go on a 44-city all-Canadian tour as star of her own ice show.
Barbara Ann signed the contracts here yesterday for the show which will be sponsored by a company known as national Sports Enterprises, formed by T. J. (Tommy) Gorman, Ottawa promoter, in co-operation with the Music Corporation of America which holds Miss Scott's contract.

To be known as "Skating Sensations of 1949" or some similar title, the show will be put together for about \$500,000 and will have a cast of 60 travelling aboard a Canadian Pacific railway "Barbara Ann Special." The cast will be mainly Canadian with a few American stars.

First performance is scheduled for Winnipeg Oct. 10 with the show heading westward to Vancouver from there.

There are about 140,000 retail stores in Canada, and they do almost \$600,000,000 worth of business a year.

Nets Stretched Across Lake To Catch 4 Bodies

DAWSON CREEK, B.C., July 8.—Wide nets have been strung across the lower end of Moberly Lake, 80 miles west of here, to catch the bodies of four men believed drowned July 1 when their outboard motorboat sank.

It is reported that the bodies of the four men were found in the lake. The bodies were found in the lake.

The bodies were found in the lake. The bodies were found in the lake.

Ballot Recount Season Draws Only One Request

OTTAWA, July 8.—(CP)—The recount season is starting.

It's 10 days since Canadians cast ballots in the general election and so far one defeated candidate has asked for a recount.

That's in the Nova Scotia riding of Annapolis-Kings where Progressive Conservative George Knowlton lost by just seven votes to the Liberal, A. A. Elderkin. Recount is next Monday.

A look at the results suggest there may be other requests for recounts among the 260 constituencies.

NO DATE SPECIFIED

Montreal Papineau is an example. There Mayor Camille Houde, an Independent, defeated J. A. Meunier, a Liberal, by 28 votes. In addition recounts are possible in Kootenay East in British Columbia where J. A. Bryne, Liberal, held a 15-vote lead over the CCF candidate, J. H. Mathews. The election act doesn't specify a particular date on which recounts must be requested and when they must be held.

It all depends on when the last of the ballot boxes reaches the returning officer in each constituency. That date is known as the final edition of the votes. The date is different for each constituency because some have a great deal of difficulty getting delivery of the boxes.

PROCEDURE

Once all the boxes are in the hands of the returning officers, the losing candidates have four days in which to ask for a recount. Any defeated candidate can get a recount by depositing \$10 with a judge and filing an affidavit saying there is reason to believe one of the deputy returning officers has improperly rejected or accepted a ballot or made a mistake in the count.

The judge then sets a date for counting the ballots himself. The judge, in addition, examines re-

jected ballots. Regulations specify that ballots must be marked with an X and in pencil.

Sometimes, however, the marks are so illegible that there's plenty of room for argument. The judge's decision is final.

DECIDING VOTE

Only the returning officer and his clerk and the candidates or their agents are allowed to watch the recount. Any time it is interrupted, all the ballots must be put in sealed containers. Should the recount show that the vote has resulted in a tie, the returning officer casts the deciding ballot.

Mathematically, the odds are against a change in the result in a recount. In the 1945 election there were some half-dozen recounts and none of them changed the outcome.

Court Action Looms In N.S.

KENTVILLE, N.S., July 8.—(CP)—A Progressive Conservative spokesman said here last night that should party candidate George Nowland lose out in a ballot recount in the federal riding of Annapolis-Kings, the issue will be taken to the courts.

R. H. Shaw said the party would question the eligibility of certain voters. This action would be taken under the Dominion Controverted Elections Act. Mr. Nowland previously questioned the "large number of service votes cast in the June 27 balloting in the riding. Election night returned gave the seat to Mr. Nowland with a 66-vote majority over Liberal A. A. Elderkin. The soldier vote of the margin to two votes and the de-

HAD NEEDLE IN HEART

Boy's Life Saved By Rare Operation

LOS ANGELES, July 8.—(UPI)—Five-month-old Dickie Morse will be able to leave children's hospital in a few days after a rare operation in which a broken needle was removed from his heart.

A famed "blue baby" surgeon, who asked to remain anonymous, performed the operation on the son of Mr. and Mrs. Billie D. Morse of San Diego, Cal. Dickie presumably rolled over on to the needle which apparently had been dropped into his crib accidentally. X-rays showed the five-eighths inch silver of steel had lodged in his heart. His parents sought medical help when the baby began to have trouble breathing.

The doctor cut through Dickie's back under the left shoulder blade, exposing the heart. He found the needle protruding 1 3/2 of an inch, quickly removed it and closed the tiny incision.

The child showed rapid improvement.

Complete Change In Atomic Bomb

Models Entirely Different Than 1947, Says Director

WASHINGTON, July 8.—(AP)—A United States army general said yesterday there has been a "complete model change" in the atomic bomb since the atomic energy commission took over the project in 1947.

Brig-Gen. James McCormack, Jr., director of the AEC's military application division, also said that all production bottle-necks "worthy of a 'wonder' now have been broken and weapons production is on a 'stable basis'."

McCormack testified at the senate-house of representative Atomic Energy Committee's hearings on charges of Senator Bourke Hickenlooper (Rep. Ia.) that there has been "incredible mismanagement" of atomic projects under the AEC and its chairman, David E. Lilienthal.

In a general denial, Lilienthal and the AEC contend that, on the contrary, the project was "hugged down" when they took it over and has been infused with new life.

MODELS USED UP

Senator Brian McMahon (Dem. Conn.) said the United States had no atomic bombs in 1947 when the army turned atomic projects over to a civilian commission.

He declared the commission "didn't find any bombs—the models had been used up."

How many bombs this country now has and the production rate of bombs are closely guarded secrets.

After the hearing, when questioned by reporters, McMahon modified his statement a little. He said he thought there were no bombs, but that there may have been one.

Visible Wheat Supplies Decline

WINNIPEG, July 8.—(CP)—In the week ended June 29, Canadian visible wheat supplies declined by 4,700,000 bushels to 70,500,000 bushels, the board of grain commissioners reported today.

At the corresponding time last year, visible supplies amounted to 48,300,000 bushels. In the week under review, Canadian overseas wheat clearances amounted to 3,500,000 bushels, a decline of 600,000 bushels from the previous week's shipments.

When your BACK ACHES...

Backache is often caused by faulty kidney action. When kidneys get out of order excess acids and poisons remain in the system. Then backache, headache, rheumatic pain, disturbed rest or that "tired out" feeling may soon follow. To help keep your kidneys working properly—use Dodd's Kidney Pills. Time-tested, popular, safe, non-habit-forming. Howard Dodd's Kidney Pills in the blue box with the red band. Sold everywhere. 12¢ per week. Reservation Only.

MISS SHINE'S SHEEN DULLS

LOUISVILLE, Ky., July 8.—(AP)—Any time you look at it, the daily double speculators who had faith in Miss Shine's horse, a heaviest, she won the first race of the nighty trot at Fairgrounds Speedway and paid \$627 for \$5. But those who picked her along with Lady Sheen in the second race, received only \$182 for the daily double. Lady Gauman was the favorite in her race.

Wheat Pool Election Soon

CALGARY, July 8.—(CP)—Elections for wheat pool delegates will be held in 10 out of 35 sub-districts open for re-election. It was announced by pool officials here yesterday. Twenty-five former delegates were re-elected for another two-year term by acclamation. Ballots must be returned by August 15.

In sub-district B-1, Frank Putnam, of Creston, B.C. former minister of agriculture in the British Columbia government, is opposing A. Van Weiden of Macleod, Alta., who has been delegate for the last two years. Other sub-districts in which elections will be held, together with the names of candidates, follow: A-3—W. A. Oliver, Warner; R. A. Warren, Warner; A-5—Lester W. Lee, Woodford; J. H. Sherman, Spring Coulee; C-1—Jack Frey, Arneson; Russell McDonald and Cecil Staples, both of Bindias; D-5—W. Green, John A. McBride, both of Byemore; D-7—Fred Dornay of Penhold; Arthur Hillson of Elora; E-4—A. E. Cladwell, Charles A. Johnson, both of Ponoka; F-4—Alton Willmot, Fort Saskatchewan; Robert H. Verex of Lamont; G-1—Fred Mawson, Vilna; Steve S. Romanchuk, Smoky Lake; J-5—C. G. Antonson, Pibroch; Adolph W. Little, Manla.

Alarm Was Mailed

PRINCE ALBERT, Sask.—(CP)—Forest fires and recent city blazes had firemen especially alert so when the alarm came they were Johnny-on-the-spot. But there was no fire. A woman had just tried to mail a letter in the fire alarm box.

Lack of Psychiatric Facilities Rapped

CALGARY, Alta., July 8.—(BUP)—Lack of psychiatric facilities in this city was protested and condemned as "deplorable" yesterday by the Calgary family council.

In a resolution to the city council, the family council said police cells were the only place patients could wait pending an examination that would permit them entry to the provincial mental hospital. "To many people in the early stages of mental illness the thought of entering a mental hospital immediately makes them balk," the resolution said.

"We know they would co-operate much more favorably if they could be admitted to psychiatric wards in the General Hospital," it added.

Dr. Morris Carnat, psychiatrist at Colonel Belcher Hospital, backed up the claim of the family council.

NAVAL BLIMP takes off from deck of carrier Franklin D. Roosevelt during manoeuvres off Norfolk, Va. Operation is part of joint orientation cruise, attended by new Navy secretary, Francis P. Matthews.

Arctic Weather Pioneers To Get Early Home Touch

DELILAH-LESS SAMSON is Reuben Lindstrom, 55, who claims he gets heart trouble every time he gets haircut. So far past 25 years he hasn't had haircut and is feeling fine. Lindstrom, a travelling odd-jobber, was taken off a train by Buffalo police at Buffalo, N.Y.

OTTAWA, July 8.—(BUP)—The pioneers who man the department of transport weather and radio stations in the Canadian Arctic can look forward to a closer contact with the comforts of civilization within the next few weeks.

The department today listed eight ships that it said will carry more than 4,000 tons of provisions and supplies as well as personal belongings to men in those isolated outposts.

The icebreaker N. B. McLean sailed today from Quebec with 700 tons of supplies for Hudson Bay and Hudson Strait, and the Hudson's Bay Company ship Rupertland is scheduled to sail from Montreal today with 192 tons for the same area.

Two other Hudson's Bay Company ships are scheduled to carry small quantities of supplies to department stations in the far north. The Fort Ross sails from Waterways, Alta., to the western Arctic, and the Fort Charles from Moose, Ont., to Whale River on the eastern shore of Hudson Bay.

The transport department ship Ice Hunter is scheduled to sail from Montreal tomorrow for Ungava Bay, with the Regina Polar leaving the same harbor on Sunday for Churchill, Chesterfield, Esquima Point, Baker Lake, Repulse Bay and Southampton. The Earl Trader is scheduled to leave Montreal July 16 for Ungava Bay.

The Newfoundlandian will sail from Montreal on August 31 for Baffin Island, the department

Senators Urge Peace Alliance

World Organization Would Admit A-Bomb Renouncers

WASHINGTON, July 8.—(AP)—A world-wide alliance for peace, with membership open to any country which agrees to forego the atomic bomb as a military weapon, was proposed last night by a small group of United States senators.

Senator Karl Mundt (Rep.-S.D.), one of the sponsors, said Russia would be eligible to join—if she would stop using the veto.

Senator Ralph Flanders (Rep.-Vt.) called a press conference for today to disclose full details of the plan. In effect, it would expand the proposed 12-country North Atlantic Treaty into a world peace union.

PART OF ARMS PLAN

Mundt said the plan will not be presented in connection with the current senate debate on the North Atlantic Pact, but will be offered as a part of the proposed arm-for-peace program.

The Truman administration's \$1,450,000,000 military aid program will be sent to congress almost immediately after the senate acts on ratifying the 12-country treaty—probably early next week.

The idea of a "United Nations within the United Nations" was disclosed after critics of the North Atlantic Pact told the senate of their objections to that agreement.

Senator Forrest Donnell (Rep.-Mo.) contended it may be off arms race "the like of which the world has never seen."

OPPOSITION CLARIFIED

Donnell yesterday urged the senate not to ratify the North Atlantic Pact on the ground that it will obligate the United States to give military aid to Europe.

The Missouri senator for the first time, made it clear he will vote against the 12-power alliance of the United States, with Canada, Britain and western Europe.

Senator Tom Connally (Dem.-T.) and Arthur Vandenberg (Rep.-Mich.) have called upon the senate for swift ratification of the pact as a solemn warning to Russia and other would-be aggressors.

Senate leaders said the vote may come today, depending upon the amount of opposition which rolls up, or may be delayed until the first of the week.

A two-thirds senate vote is required to ratify the treaty.

Lebanon Nazi Group Smashed, Fuehrer Caught

BEIRUT, Lebanon, July 8.—(UP)—The government claimed today to have smashed the national party with the arrest of its Fuehrer, Anton Saadi, and 45 of its directors.

Troops also seized a number of party members. Most surrendered, reliable sources said, but troops had to demolish the homes of a few "obstinate" followers.

A Cairo dispatch said Saadi already has been tried by the Lebanese government and may be executed today.

LOTION NOTION is latest bid in billion-dollar-a-year slot machine business. This comely vacationer was first to buy dime's worth protection against bad sunburn. Machine sprays 30 seconds.

CHARLIE MACARTHY'S COUSIN AIDS PASTOR

LONDON, July 8.—(CP)—Jimmy, the ventriloquist's doll, is attracting congregations for his operator, Rev. Elijah Schofield of Clapton Park Congregational church.

Kiddies follow every word that Jimmy, via the minister, says. After telling a Biblical story, Jimmy leads the children in hymn singing.

"I have also introduced Jimmy to adult congregations," Schofield said. "Churches of many different denominations have asked me to take Jimmy round to them."

Judgment Held On Smallwood

ST. JOHN'S, Nfld., July 8.—(CP)—Decision was reserved on an appeal by counsel for Joseph Smallwood in magistrate's court yesterday that charges of intimidation against the Newfoundland premier be heard before a jury.

Mr. Smallwood, charged under the Dominion Elections Act with "practising intimidation" of voters in the federal district of St. John's, west, at present is on a tour of the Maritimes.

Counsel P. D. Lewis asked Magistrate Hugh O'Neill to observe "the fundamental right of trial by jury." He also asked for a postponement of the case until August because the premier is out of Newfoundland and because the island's first legislature opens Monday.

BROUGHT CHARGES
The charges were brought by W. J. Browne, successful Progressive Conservative candidate in the riding of St. John's West.

Isaac Mercer, counsel for Mr. Browne, argued against the case being brought before a jury and asked for summary trial before the magistrate. That method, he said, would be "speedier and less expensive." The magistrate would be able to consider the matter in a more impartial manner than a jury.

Texas Polio Cases Take Sharp Upswing

AUSTIN, Tex., July 8.—(AP)—The polio epidemic in Texas already the worst in history is becoming more serious. The state health office announced that 118 new cases for the week ending July 2, the highest number ever recorded for a seven-day period. It boosted the total number of reported cases for the year to 801.

With almost 600 persons to the square mile, Mauritius Island in the Indian Ocean is one of the most densely populated regions in the world.

RECORD SET TOO SOON

NEWPORT, R.I., July 8.—(UP)—Joe Miele, benevolent

has had luck when he landed a 50-pound striped bass, believed to be the largest caught on rod and reel in New England waters for more than 10 years. Miele caught his record fish just three days before the \$1500 Newport-Jamestown fishing derby opened.

added, ice conditions permitting, she is scheduled to call at Clyde River, Pond Inlet, Dundas, Arctic Bay and Pangnirtung before returning to St. John's.

Asbestos Worker Bid For Arbitration OK'd

QUEBEC, July 8.—(CP)—A request for arbitration proceedings to settle the dispute between 2,500 asbestos miners at Thetford Mine and three mining concerns was granted by the provincial government today.

The department of labor announced that orders had been given to labor department conciliation officers to inform the three companies concerned to name their arbitrators or one for all three.

The Thetford Mines workers are part of the 5,000 who walked out Feb. 13 demanding a 15-cent-an-hour increase. They voted to return to work June 23 without any increase in basic pay of 85 cents an hour.

DIRECT TALKS FAIL

Demand for arbitration was made after direct negotiations with the companies failed after the return to work.

The union will place under arbitration the same demands that provoked the long violence-punctuated strike. These demands include unemployment security, a social security fund and other benefits.

The 2,000 miners at Asbestos, Que., employed by Canadian John-Manville Company Limited, decided to end their 22-day Dominion Day

with an immediate 10-cent increase. They are negotiating for the remaining five-cent raise and the other demands but are not concerned in the Thetford Mines arbitration.

Dedicated Farming

TRENTON, Ont.—(CP)—A plot of 7,500 square feet here has been planted in vegetables by Thomas N. Laurent, but he plans to use only what vegetables he needs. The rest of the year's harvest will go to needy families in Trenton.

ion security, a social security fund and other benefits.

The 2,000 miners at Asbestos, Que., employed by Canadian John-Manville Company Limited, decided to end their 22-day Dominion Day

with an immediate 10-cent increase. They are negotiating for the remaining five-cent raise and the other demands but are not concerned in the Thetford Mines arbitration.

The union will place under arbitration the same demands that provoked the long violence-punctuated strike. These demands include unemployment security, a social security fund and other benefits.

Canadian Oil Drillers Fear U.S. Competition

CALGARY, June 8.—(CP)—Livelihood of Canadian independent oil drilling contractors is threatened by the influx of United States rigs to the rich Alberta oil fields, rig distributors here said today.

The distributors said 25 rigs owned and operated by Canadian operators are standing idle because of lack of work. The rigs represent a capital outlay of more than \$200,000.

At the same time, distributors said, 19 rotary drilling rigs operated by U.S. contractors are at work in Alberta. They said a total of 35 US rotary rigs have crossed the border, with 16 of them laid up at present.

PRICES CUT

"The price of drilling in the Redwater field already has been cut to \$5.50 a foot or lower," an official of the distributors said. "The next step will probably be a further price cut and if this war continues, many independent Canadian operators will face bankruptcy due to the heavy influx of U.S. equipment and labor."

At the time the rich Redwater field, about 45 miles northeast of Edmonton, was discovered, drilling price was fixed at \$6.50 a foot. It is reported here that some U.S. contractors are offering to drill in the Leduc and Redwater fields for \$5 a foot.

Distributors claim Canadian contractors would lose more than \$2,500 a hole, if they met the \$5 a foot rate.

ONE-WAY TRAFFIC

U.S. operators can enter Alberta without paying import duties on equipment. Canadian drillers are not allowed to cross into the U.S. to seek employment due to immigration regulations.

There are about 130 Canadian rigs in Alberta's oil fields at the present time. They represent an

investment of some \$20,000,000. Average rigs employ crews of about 18 men in summer and 21 in winter.

Executions of so-called witches said in England in 1941, and by 1982 the victims numbered 130.

HE'LL BE EXILED TO SICILY

Even Italy Doesn't Want 'Lucky' Luciano

By GEORGE BRIA

ROME, July 8.—(AP)—Charles "Lucky" Luciano, one-time New York vice king, will be "exiled" to a village in Sicily "because his presence in Rome is a crime threat," Italian authorities announced today.

The 45-year-old Sicilian was picked up yesterday in his fashionable Rome apartment. He was questioned in connection with an international drive on drug traffic, but "no evidence was found against him," police said.

Nevertheless, they said, he will be sent to the tiny village of Lerara Fridda, near Palermo. The village was his home once before. When Luciano was deported from the United States in 1947 and arrived here, he was restricted to Sicily. Later, how-

ever, he was permitted to circulate freely.

Luciano was questioned for hours yesterday in a Rome jail about possible links with an international drug ring. The ring was uncovered June 25 with the arrest at Rome airport of a man identified as Charles Vincent Trupia of New York. Police said Trupia was carrying about 20 pounds of cocaine, valued at \$200,000.

The American said the cocaine which customs officials charge

was carried by Trupia originated with an Italian who so far has evaded arrest. He added that the drugs apparently had been shipped from Switzerland to Milan.

The newspaper Il Tempo said Luciano has been living with a "most graceful lady" for more than two years.

The paper said the lady—dressed in negligees—received newsmen at the Luciano apartment last night and told them Lucky "lives a most honest life in Italy."

This Beautiful Home For Sale

Many features are incorporated in the plan of this home that will provide a great deal of pleasure for anyone living in it.

Complete particulars will be given on request. Inspection by appointment only.
